

Created in 1966, Manusa is a market leader in the automatic door industry thanks to its own development of the latest technology for automatic doors and a team of professionals who work to ensure complete customer satisfaction.

We don't leave anything to chance

We only use the **highest quality materials** to manufacture our doors, and submit them to the **strictest quality controls** before being delivered.

Exclusive solutions for each customer

Customer satisfaction is our reward and the driving force behind our continuous **improvement every day**.

More than 50 years manufacturing automatic doors

From the very outset we have been committed to **innovation** and **technology** in order to provide our customers with **the very best products** adapted to each market and to their requirements.

International presence

We are present in more than **80 countries** through **exclusive distributors** that have received training at our facilities in Spain to guarantee our consistently high level of customer support and service.
